I recently bought a pair of your boots -Forced Entry 8" Side Zipper Composite Toe Tactical Boot- for work. So happy with them so far. I've always used Magnum boots up to now, but, i think you've definitely got a repeat customer. Lightweight, comfortable, well made and a lot cheaper than i've paid up to now. And delivery to the UK from the US was quicker than a lot of times i've dealt with dealers here.

My Ma-1 flight jacket is in. Could have done with a smaller size but I love how the 4x will leave space under for sweaters and/or equipment

Also the sleeves are totally long enough to not reveal my wrists when I drive or move my arms- which is SUPER awesome in a fall/winter coat

It's @Rothco\_Gear in case any followers are interested. Seems well stitched, zippers feel sturdy, lining looks great. Unbeatable prices
