

Rothco MOLLE Tactical Tourniquet and Shear Holder Pouch

Rothco's Tactical "TQ" Pouch is designed to hold your tourniquet and shears with an elastic hook & loop compartment and a hidden back pocket with a horizontal hook and loop strap that feeds through the handle of your shears. The tactical tourniquet and shear holder pouch (6 3/4" X 2" X 1") features a versatile design with back MOLLE (Modular Lightweight Load-Carrying Equipment) straps that allow you to attach the tourniquet pouch vertically or horizontally to your battle belt, military vest, and various other tactical gear items. The tactical pouch's main hook and loop compartment provides quick and easy access to your tourniquet and includes elastic side straps so you can hold different size tourniquets. The hidden back pocket and horizontal hook and loop strap allow you to securely hold your shears in place by feeding the strap through the handle.
